

OBERON SOUTH PRIMARY SCHOOL NEW PERMANENT MODULAR BUILDING

Our new learning centre includes the following features:

Cutting edge educational design

Flexible learning spaces for 21st century learning

Fit-for-purpose build requiring minimal maintenance

Low carbon footprint

Ability to collect rainwater for re-use in our agriculture program

Dedicated Food Technology area and kitchen

Energy efficient design and building materials

Common spaces for learning

Dear Community,

I am delighted to share the designs of our new permanent modular buildings with you.

Architecturally designed and constructed offsite, the buildings will soon be dropped onto our new school location on Kidman Avenue and put together far quicker than it would have taken to complete a traditional building.

We have worked closely with the design team to make sure our two new buildings meet Oberon South Primary School's vision and needs. They will provide flexible and modern learning spaces for general education, as well as administration and staff resource areas. The classrooms have adjoining smaller spaces for meetings, reading, or quiet reflection. They also open on to larger communal spaces, giving us flexible learning environments to suit different activities and class sizes.

Please feel free to contact me with any questions as we work towards this exciting milestone.

Kind regards,

Joanne Black

Principal, Oberon South Primary School

More information

If you have any questions about these exciting changes, please contact the principal, Joanne Black, through the office or by phone on **(03) 5243 2997**.

If you would like up to date information on the project, please visit schoolbuildings.vic.gov.au and search for Oberon South Primary School.
